# Community Coaching with Inspiring Communities

Community-led development (CLD) is hard and often messy. There are no rulebooks or recipes to follow.

Community coaching gives you the space to reflect on and unpack your community-led practice. Understand what's working, what's not – figure out why, and what you might next do next.

You set the agenda for what you'd like to work on over four, one hour sessions during the year.

### We can match you with a community coach who will:

- Help you apply CLD principles in your work.
- Link you to helpful tools and resources to enhance your practice.
- Offer ideas and tactics around the 'tricky' stuff.
- Enable you to reflect on changes, impacts and learning in real time – community-led development really is 'learning by doing'.

**Price:** Four coaching sessions: NGOs \$590 plus GST,  
LG/CG/Business/Funders \$890 plus GST

If you're interested in coaching please email us: [exchange@inspiringcommunities.org.nz](mailto:exchange@inspiringcommunities.org.nz)  
Grants support may be available in different parts of the country.
