FACILITATING COMMUNITY-LED CHANGE

With an emphasis on engaging all parts of the community and bringing together diverse people, voices, groups and sectors - community-led development can be challenging. Having the skills, confidence and tactics to convene creative and constructive big picture conversations is essential.

This workshop will focus on useful approaches, processes and ideas for bringing and keeping groups and teams together, having conversations that really matter – while having FUN.

This workshop will help you:

- Create cohesive groups
- Polish your role as a facilitator
- Explore approaches that build common agendas
- Gather a variety of participation techniques for your tool kit
- Deal with difficult behaviours and conflict

This workshop is facilitated by Cissy Rock.

“Fun, interactive, well-paced, active learning.”

ACTIVATING COMMUNITY-LED CHANGE

Community-led development (CLD) aims to strengthen the vitality of local communities by activating and weaving the contributions of everyone connected to a place. Success is enabled by being creative, by engaging multiple voices and perspectives, inspiring hope and possibility, and through finding ways for people to take action together for **their** place.

Packed with practical tips, tools and stories, this workshop will help you:

- Move from a consultation to empowerment mindset
- Get creative and engage local people and their dreams
- Build respectful relationships with tāngata whenua
- Understand and work with community-readiness
- Map community strengths and assets to build on what you've already got!
- Enable others to actively shape, support and participate in locally-led projects.

This workshop is facilitated by either Anna Parker or Kindra Douglas.

“A valuable and timely leadership learning day.”

COLLABORATING IN CLD

Effective partnering for your place

A community thrives when locals connect and collaborate to realise the potential of their place. Partnering enables us to unlock resources, create new ideas, leverage our strengths and creatively mobilise to tackle both complex challenges *and* opportunities on the horizon.

Working successfully with others requires focused attention on building respectful relationships, growing trust and sharing power. It's an art form, not a science!

This workshop will help you:

- Expand your capacity to hold and maintain diverse relationships
- Strengthen your partnering approach
- Prioritise your time and relationship investment
- Apply tools to build trust and sustain stakeholder relationships
- Establish steps to map and tap into the strengths of your wider community
- Identify new allies, connections and strategies for 'joining up'

This workshop is facilitated by Kindra Douglas.

MAKING SENSE OF COMMUNITY-LED CHANGE

Working in community-led change is messy and challenging. This workshop is for those wanting to more authentically demonstrate meaning and value from community-led approaches and projects. This deep dive session is for those working in community-led initiatives as well as funders, evaluators and evaluation commissioners.

Over two days, we bring together insights, examples, tools and frameworks from both community-led Development (CLD) and developmental evaluation (DE). Practical, with lots of opportunities to directly apply learning into your own situations, plans and projects.

This workshop will help you:

- Apply DE and CLD principles and values to your own community-based projects and contexts
- Understand why and how to use different kinds of evidence to understand and tell your story
- Use and apply some DE tools e.g. framing or reviewing your evaluation plan
- Understand what you can do yourselves and when specialist support might be required

To maximise the impact of this workshop we recommend bringing a colleague or others from your project team so you can work on your evaluative plans and approaches together.

This workshop is co-facilitated by Kate McKegg (Developmental Evaluation Institute) and Denise Bijoux (Inspiring Communities).
